How to setup DM-531 X-Band Controller

1) Disable all alert tones in both radios (DP4000 and TLK100i) and turn off MIC AGC in DP4000.

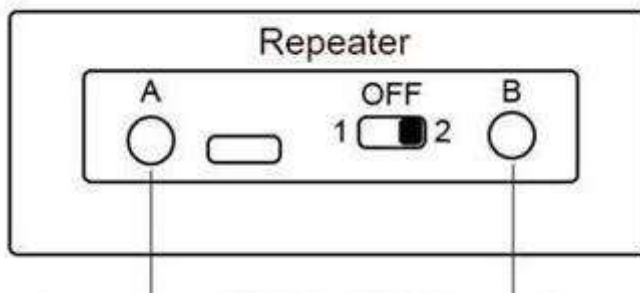

2) Adjust both radios to 50% volume.

Audio Accessory setting in DP4000

3) Connect the cables to both radios and switch on the DM-531 X-band controller in position 2.

4) Select the correct channel on both radios and you are good to go.
